## ABOUT MYSELF

Frontend Developer passionate about Web3 innovation and seamless user experiences. Skilled in building scalable decentralized and traditional web applications using React, Next.js, and Web3 tools. Built and deployed dApps including a fundraising platform, Tra-Fi, and e-commerce app. Currently focused on deeper blockchain integrations and contributing to open-source tools in the Web3 ecosystem.

## SKILLS

### FRONTEND STACK:

Typescript | CSS | JavaScript | React.js | HTML | Tailwind.css | Bootstrap | Nextjs

### WEB3/BLOCKCHAIN:

Web3.js | Ethers.js | Sui SDK | WalletConnect | MetaMask Integration

### VERSION CONTROL:

Git | GitHub

### DEPLOYMENT:

Vercel | Netlify

### OTHER SKILLS:

Community Management | SEO Basics

## CERTIFICATIONS

### Certifications & Courses

- Web Development – Udemy (Built portfolio and landing pages using React)
- Front-End Development – freeCodeCamp (Completed 50+ coding challenges)
- JavaScript Algorithms and Data Structures – freeCodeCamp
- Digital Marketing and SEO – Google
- Blockchain Basics – Coursera

## WORK EXPERIENCE

### Freelance (Remote)

#### Frontend Developer

07/2024 – 09/2024

- Built and deployed responsive websites and landing pages for startups and personal brands using React.js, Tailwind CSS, and Next.js.
- Integrated third-party APIs including payment gateways and identity verification systems.
- Collaborated with clients to gather requirements, design mockups, and implement functional and aesthetic interfaces.
- Maintained codebases using Git and GitHub, ensuring version control and team collaboration

### GitHub and OnlyDust

Website <https://app.onlydust.com/users/Elite-tch/overview>

#### Open Source Contributor

2025 – Current

- Contributed UI components, documentation, and bug fixes to community projects
- Collaborated in code reviews and PRs to maintain clean, scalable codebases

### My Tech Team (Remote)

Email [mytechteammail@gmail.com](mailto:mytechteammail@gmail.com) | Website <http://www.mytechteam.ng/>

## Frontend Developer

2024 – Current

- Collaborated with a teammate to develop Chalonic Ventures, an ecommerce platform for construction materials • Handled frontend development using Next.js, Tailwind CSS, and TypeScript.
- Implemented product listing interface, and responsive UI
- Worked closely with the other developer to align design, performance, and user flow

## Web3 Hackathon Contributor (Sui Hackathon, Lisk Blockchain, Skarnet)

## Frontend Developer

2023 – 2024

- Contributed to multiple dApps in areas of DeFi, identity verification, and fundraising, E-commerce,
- Built frontend components, wallet integrations, and payment systems
- Gained hands-on experience with Web3.js, WalletConnect, and Sui SDK

## PROJECTS

07/2024 – 09/2024

### Chalonic Ventures:

Developed the UI of an e-commerce platform with a wide range of products, providing an optimized shopping experience for users.

Tech Stack: ( Nextjs, Tailwind and Typescript )
